## BOOK SYNOPSIS

First published in 1993, The Ultimate Cigar Book has become a classic in its field, and is generally credited with having helped launch the current cigar smoking craze. It has been reprinted numerous times in the United States, and is now sold worldwide. No other book contains as much detailed and factual information on virtually every facet of cigar making and cigar smoking. And now this trendsetting book has been revised in this fourth edition for the aficionado of the future! Forget 1492. This book starts out in B. C. (Before Columbus) and transports the cigar enthusiast on a fun and fact-filled adventure into virtually every realm of today's popular and growing cigar smoking pastime. Written by one of the most knowledgeable and internationally-celebrated pipe and cigar authors of our time, Richard Carleton Hacker's well-known wit and wisdom will keep the reader enthralled with every turn of the page, as he takes you on an information-packed would tour of cigars. Starting off with a history of cigar smoking, the author then shows us how cigars are made today (handmade, handrolled, and machine made), divulges the secrets of finding the "perfect" cigar, and discusses the ritual of smoking and how to properly care for and store our cigars. From there the book lists a number of innovative cigar accessories, suggests which beers, wines, whiskeys, brandies, and cognacs go with what cigars, enlightens us with a chapter on cigar smoking celebrities, and concludes with the world's first International Compendium of virtually every cigar brand known today, complete with histories and observations on taste, according to the author's HPH (Highly Prejudiced Hacker-Scale) ratings. If that was not enough, there is even a dictionary of CigarSpeak! The Ultimate Cigar Book is the most comprehensive, factual, and up-to-date book for the cigar smoker or for those who just want to learn more about the fascinating and popular world of cigar smoking.
